```c
#include <stdio.h>
float main()
{
    float MH=4.5;
    float A,H;
    printf("WELCOME TO THE ROLLER COASTER!!!!\n");
    printf("Please enter your age\n");
    scanf("%f",&A);
    printf("Enter your height in feet\n");
    scanf("%f",&H);
    if(H>=MH)
    {
        printf("Entry is allowed,Enjoy your ride!!!!\n");
    }
    else{
        printf("Entry is denied");
    }
}
```
